

RAPID RELIEF 1000

If you don't have an Express Dual
and Anglemaster...
Then you need this handy tool

Before the relief on your reel is completely lost, you can restore it in minutes with this handy machine. Portable and fast, it saves putting your unit onto a grinder. The Rapid Relief uses proven Rapid Facer technology to combine speed and economy.

- Powerful magnets hold unit firmly to the mower
- Driven by standard shop air
- Optional Rapid Facer head attachment restores the front face of your bedknives.

RAPID FACER 1000

Its unique bar aligns an accurate face on the bedknife in just 90 seconds.

This is the sharpening tool that gets your mowers out of the shop and cutting the grass.

Bedknife front face sharpener

Savvy turf managers know how important a bedknife can be in getting a precise cut out of a mower. The Rapid Facer is the answer. It puts a perfect edge on the front face of your bedknife in just one and half minutes. With speed, convenience and accuracy you can re-sharpen weekly or even daily, as needed.

It's the quick turn-around machine.

The Quick Turnaround Machine

- Quick turnaround — mowers aren't stuck in the shop
- Greens play faster — grass gets cut at consistent height
- Cleaner cut equals healthier grass
- Reduces mower wear — less drag
- Prolongs life of the bedknife
